

Storm Greeter™ Construction Component Product List

Galvanized steel fasteners and connectors, sealed within an inert polymer skin. Storm Greeter is made to last through the everyday exposure to salt spray and humidity, the chemicals in treated lumber, and to replace the rusting connectors that may not last through the coming year...or the next big storm.

Part Name	SG Part No.	Simpson	USP	Description
Hurricane Strap 18"	HS-18	LSTA18	LSTA/MSTA18	Hurricane Straps & Ties - Hurricane straps and ties are made for protecting structures from the uplift caused by high winds - along the coastlines - and during storms. They reinforce transition points between beams and floor systems, and they keep floor joists from moving side to side during storms. Storm Greeter utilizes Simpson Strong-Tie straps and ties.
Hurricane Strap 24"	HS-24	LSTA24	LSTA/MSTA24	
Hurricane Strap 36"	HS-36	LSTA36	LSTA/MSTA36	
Hurricane Strap Twist 16"	HST-16	LST16	LTW16	
Hurricane Strap Twist 18"	HST-18	LST18	LTW18	
Hurricane Strap Twist 20"	HST-20	LST20	LTW20	
Hurricane Diamond Tie	HDT-1	H1	RT15	
Hurricane Tie Twist	HTT-1	H2.5A	RT Series	

Part Name	SG Part No.	Simpson	USP	Description
Joist Hanger 2 X 6	JH-26	LUS26	HD26	Joist Hangers - Joist Hangers are used for securing floor joists to beams in the floor systems of houses and decks. If you don't see a hanger suitable to fit your needs, contact Ovante. The hanger you need will be added to our product line and shipped to you ASAP.
Joist Hanger 2 X 6 Double	JHD-26	LUS26-2	HD26-2	
Joist Hanger 2 X 8	JH-28	LUS28	HD28	
Joist Hanger 2 X 8 Double	JHD-28	LUS28-2	HD28-2	
Joist Hanger 2 X 10	JH-210	LUS210	HD210	
Joist Hanger 2 X 10 Double	JHD-210	LUS210-2	HD210-2	
Joist Hanger 2 X 12	JH-212	LUS212	HD212	
Joist Hanger 2 X 12 Double	JHD-212	LUS212-2	HD212-2	

Part Name	SG Part No.	Description
Gusset Plate 3 1/8" X 5"	GP-385	Gusset Plate - Reinforces wood to wood connections in all areas of construction.

Insulated Concrete Foundation Applications

Part Name	SG Part No.	Simpson	USP	Description
Mounting Plate - ICF Installation	MPICF	ICFVL	N/A	ICF Brackets/Ledgers Insulated Concrete Foundations - formed with styrofoam blocks - utilize the mounting plate to provide an anchor to which the ledger brackets are attached. The mounting bracket is inserted through the styrofoam and will be embedded in the concrete.
Mounting Bracket - ICF Installation	WLICF	ICFVL-W or CW	N/A	

Stinger Nails

The same polyceramic coating applied to Stinger Nails can be applied to any shape, size, or type of screw, nut, or bolt.

Part Name	SG Part No.	Description
12p Spiral Decking Nails - 1lb Box	SPNAIL-12-1	<p>Stinger Nails are galvanized nails coated with a tough polyceramic coating. During the nailing process, the polymer warms up and bonds with the wood. Stinger Nails will not rust or corrode and you will not experience rust streaks or stains on your decks, piers, or siding.</p> <p>One of the leading hot-dipped galvanized nail manufacturers in the world has this disclaimer as part of their warranty:</p> <p><i>"...these nails have been Double Dipped in molten zinc by our exclusive process. These nails are further warranted against red rust for the lifetime of your project when used in routine, residential applications not exposed to salt-spray or other extremely corrosive environments."</i></p> <p>What kind of warranty is that? Use Stinger Nails where ever you want to use them, without worry.</p>
12p Spiral Decking Nails - 5lb Box	SPNAIL-12-5	
12p Spiral Decking Nails - 50lb Box	SPNAIL-12-50	
8p Spiral decking Nails - 1lb Box	SPNAIL-8-1	
8p Spiral decking Nails - 5lb Box	SPNAIL-8-5	
8p Spiral decking Nails - 50lb Box	SPNAIL-8-50	
12p Ring Shank Decking/Siding - 1lb Box	RSNAIL-12-1
